Customer Reviews

If you'd like to have slim sexy thighs all you have to do is exercise, the author seems to say, and in this illustrated book she tries and manages to prove her point. The 12 Best Thigh Toning Exercises for Women is a workout guide that promises to ensure that you will get the toned and fabulous looking legs you have always wanted. Rachel Howe points out right from the start that: "If you are like most women, your thighs are a very important part of your body. You want them to look fit and firm because you know that if you do not take care of this part of your body you will suffer the consequences. No woman wants to have cellulite. Many times it will keep her from wearing a cute dress or shorts, and worst of all it can keep her out of beachwear." Now, no woman would want that, right? What do they have to do to avoid it?--Exercise; time and again. That though doesn't necessarily mean that they have to work out until they drop; all they have to do is follow a program like the one proposed by the author, which will not only improve the way their bodies look, but also how they feel: "Keeping your thigh muscles in shape keeps you functionally fit to take on the rigors

of a busy day and still have energy left over to dance the night away! Any leg-powered form of exercise is going to give your leg muscles a workout along with your heart and lungs so activities such as walking, hiking, jogging and cycling are all ideal for keeping your legs in shape and boosting your overall energy levels."But all of the above are outdoors workouts. So what can you do when you are at home? Apparently there are quite a few exercises that don't ask of you to go out; exercises like all sorts of squats, front and step-up launches, leg extensions and so forth.
