This is the series that is used and taught in my middle school for 5th grade Health. The book itself contains a lot of good information and the text seems to be perfect for my students, even the ones that struggle. The only downside to this book is it is starting to show its age when it comes to the pictures. My kids love to make fun of the clothes the kids in the book are wearing, and it can be a distraction to them sometimes.

Wonderful book! Teaches key concepts to adolescents.

Happy with it.
