Theta Healing: Introducing An Extraordinary Energy Healing Modality
In 1995, Vianna Stibal, a mother of three young children, was diagnosed with a cancer that was quickly destroying her right femur. Everything she had tried using conventional and alternative medicine had failed, until she employed a simple technique that she used in her work as an intuitive reader. Amazed that she had healed herself instantaneously, Vianna started to use this technique in her sessions with clients and saw person after person miraculously heal. ThetaHealing is a powerful energy-healing technique, a process that brings about physical, psychological and spiritual healing with focused prayer through the Creator of All That Is. This book is a fusion of the past works of "Go Up and Seek God" and "Go Up and Work with God". Discover: the belief and feeling work that can instantly change the thinking within you that creates illness; the 7 Planes of Existence, a concept that allows you to connect to the highest level of love and energy of All That Is; how to develop the ability to change on all levels: physically, mentally, emotionally, and spiritually, using the Creator of All That Is. Note, the remedies, approaches and techniques described herein are meant as a self help guide, not meant to supplement, or be a substitute for, professional medical care or treatment.

OK, there are misspellings and grammatical mistakes, big deal, the information is really neat, and more importantly, it WORKS. This book is packed with useful information. I read it 5 times through, getting useful stuff each time. I have been able to master her methods from the book, though I do...
also plan to take a seminar. I got more results faster with this book than any other. She doesn't just talk about feelings, she notes that you can download feelings you lack. This book, along with Richard Bartlett's Matrix Energetics: The Science and Art of Transformation, was highly recommended in a LOA course I took. I went back and forth between them, which helped me understand each of them better. No rehashes here, this lady got her stuff pure. I got a copy for my daughter, for someone at work, and for my wife. I sent copies of her previous books to other friends. I have one thing to say on this book:

YEAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAH!!!!!!!!!!!!!!!!!!

Now Vianna may perhaps have gotten somewhat too full of herself, in the last few years. She has detractors on the web. The book itself is good. I would probably not take any courses with Vianna, based on what her students have told me, but then again I don't need to, I have this book. Now you do have to enter into the Theta state, the zero point state, the state of pure consciousness, for any of this to work.
