In her third book, Queer Theory, Gender Theory: An Instant Primer, Riki Wilchins ventures from writing an autobiography (_Read My Lips_) and editing an anthology (_GenderQueer_) to writing theory explicitly. In particular, she seeks to take theory out of its current limited circulation among "academics and graduate students" (1) and reinvigorate its political center and make it accessible to activists. Wilchins begins by giving brief histories of civil rights movements (chapters 1-3), follows with discussions of postmodern theory centered around Jacques Derrida and Michel Foucault (chapters 4-6) complete with contemporary examples of uses of postmodern theory (chapters 7 & 8), and then proceeds to discuss postmodern theory’s weaknesses (chapter 9-11), notably its lack of “any vision of constructive social engagement and political action” (100), and its tendency not to
account for the varying perspectives people might encounter due to dimensions of difference, specifically race (chapter 10). Similarly focused on limitations and weaknesses, in chapter 11, Wilchins uses Judith Bulter’s work to assert that identity-based politics, while in some ways facilitate political organizing and movement, inevitably and undesirably create margins and practice exclusion. The final chapter chronicling GenderPAC’s founding and continue development and growth are offered by Wilchins as an example of theory being put into action. Wilchins’ purpose is to bridge queer theory and human rights activism in order to instill in academics the necessity of putting theory into action, and perhaps more importantly, to offer those unfamiliar with queer theory access to the possibilities such theorizing has opened up and makes available (as evidenced by the book’s subtitle "An Instant Primer").
