# Fundamentals Of Modern Manufacturing, Binder Ready Version: Materials, Processes, And Systems

## Synopsis

Fundamentals of Modern Manufacturing: Materials, Processes, and Systems, 6th Edition, is designed for a first course or two-course sequence in Manufacturing at the junior level in Mechanical, Industrial, and Manufacturing Engineering curricula. As in preceding editions, the author's objective is to provide a treatment of manufacturing that is modern and quantitative. The book's modern approach is based on balanced coverage of the basic engineering materials, the inclusion of recently developed manufacturing processes and comprehensive coverage of electronics manufacturing technologies. The quantitative focus of the text is displayed in its emphasis on manufacturing science and its greater use of mathematical models and quantitative end-of-chapter problems. This text is an unbound, three hole punched version.

## Book Information

Loose Leaf: 944 pages

Publisher: Wiley; 6 edition (November 23, 2015)

Language: English

ISBN-10: 1119128692

ISBN-13: 978-1119128694

Product Dimensions: 7.8 x 1 x 10 inches

Shipping Weight: 1.3 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (1 customer review)

Best Sellers Rank: #474,024 in Books (See Top 100 in Books) #266 in [Books > Textbooks > Engineering > Industrial Engineering](#) #268 in [Books > Engineering & Transportation > Engineering > Industrial, Manufacturing & Operational Systems > Manufacturing](#)

## Customer Reviews

Good book- In very good shape. I am glad I bought from this seller.
