# The Breaking Point: M/M Mpreg Alpha Male Romance

## Synopsis

Vinny and Lance have the show business bug. Vinny's an Italian kid from Ohio coming to Chicago to try to make it as a singer. Lance is a Jewish kid from all over the place, hanging out at improv shows and open mic nights. They meet and find an instant attraction, and team up that very night: partners on and off stage. The ups and downs and hardships of a life in the spotlight are one thing, but Lance has a condition that he thought was just a family joke, some legend passed down just to goof with kids: his dad is the third son of a third son, and it turns out Lance is too, and with that comes the strange ability to get pregnant. Lance thinks it's a joke right up until he realizes it's true, and has to tell Vinny what's happened. That's one more crazy thing thrown at the pair in the pursuit of fame, and the only question is: will the love they have for each other keep them together, or tear them apart? This is a non-shifter male pregnancy gay romance book. This book contains sexually explicit content not suited for those under the age of 18. The book is approximately 50,000 words, has a happy ending and does not end in a cliffhanger. The book does include a bonus chapter for insider's club members. However the bonus chapter is not required to finish the book.

## Customer Reviews

I have some mixed feelings about this latest release of Aiden Bates. Of course I loved the topic but I

had some issues with the characters and the way the story was told. Vinny, the alpha of the story, I could barely tolerate. He has this wonderful talent but he's a complete jerk, easily manipulated, has little to no common sense and not to mention fickle. He meets this great guy, Lance the omega, and immediately treats him like he's some clueless child but of some good use. In my opinion, Lance is the hero and should be the alpha of this story. He changes his way of life to make sure things are safe for his family. He swallows a ton of crap and he's set aside by the person who claims to love him. The chemistry between the two seemed forced and pretty much one-sided. Vinny showed more heat and passion when talking about other people. Now for the plot, the history of Lance's family is more than a little vague so I was left with how and why after completing the story. This lack of information does not help make the story realistic or make much sense. Considering the Mpreg genre, a more solid history makes the story real. Considering the amount of Mpreg books written by Aiden, I hate to admit but I am a little disappointed with this one. \*\*I received a free advance reader copy of this book in exchange for an honest & unbiased review.\*\*

I was disappointed with this book. I love reading Aiden Bates normally but I just didn't get this one. Lance and Vinnie didn't appeal to me as characters. The writing style seemed different to normal and I usually love the way Aiden's books are written. This was a good story, but it was told in a very wordy way. Lance is from a travelling performance family and had always lived life on the move. Vinnie comes from a small town where gay is not openly tolerated. Both find themselves away from home and looking for their futures. When they meet they instantly click both personally and as an entertainment duo but Vinnie won't come out of the closet. Lance is OK with it until the tales he's been told about the third son of a third son being able to conceive a child come true for them. Vinnie's career is about to take off and Lance finds himself back with his parents for the pregnancy believing Vinnie has forgotten him. Vinnie loves being in the limelight but he does miss Lance. The story of how their careers and personal lives progress is good, if a bit confusing, but the interaction between them just didn't capture my imagination, apart from the sex which as usual is hot. Note, I received a free advance reader copy of this book in exchange for an honest & unbiased review.

Vinny is a man from a small town in Ohio, who moves to Chicago to make it big as a singer. Lance is a sweet kid from everywhere and is looking to be big in comedy and improv. They start a partnership both on and off stage the first night they meet and it goes from there. They each have a lot to learn about themselves and each other, but on top of the trial and tribulations that come along

with trying to make it big and being broke they have a little surprise that shows up. I give this book three stars because while its not the best that Aiden has written it was still an ok read. I don't like how it was written at such a clipped pace because it leaves out what helps you imagine the characters and get to know them, like how they look, what happens in their past to make them who they are now, and why their as so passionate about their talents. I also just really couldn't into Vinny like I have Aiden's other alpha characters, I also just didn't care for how it was written, it was like he couldn't decide what person he wanted to write in or maybe the character's were a little scattered brained when thinking on past and recent events."I received a free advance reader copy of this book in exchange for a honest and unbiased review."

The book blurb explains the story better than I

can..\*\*\*\*\*I like the subject matter of non shifter m/preg which is a different twist on the genre out there. We have Vinny and Lance: each wanting to make it big. Vinnie as a singer and Lance, a comedian. They meet and it takes off from there. The story line seemed so interesting and i really wanted to like it but I did not. And the reason why? It was the way the book was written. I could not get past the way it was written.I disliked the short sentences and the fact it felt like I was being told what was happening rather than living and breathing their actions. I actually thought this was written by someone else. This had a promising start for me but it fell flat. Not one of the best books I have read by Aiden\*\*\*\*\*I received a free advance reader copy of this book in exchange for an honest & unbiased review.

This book is written in a very interesting and somewhat disjointed manner. The best way to describe it, especially Vinny's first chapter, is like reading comic book panels; each panel being a scene of the past. It made it very confusing for me to adjust to the pacing of the story, as the timeline wasn't really easy to see at first. Perhaps I missed it, but I don't know if Vinny was trying to make it big for 10 years or only for a few months. I don't recall it being specifically stated.The lack of condoms was a large issue with me. I think I've just read too many gay romances where they are sensitive towards STDs and such, so I just kinda itch when they are left out. That's a minor issue, though.I swear I felt as detached as Vinny seemed to be throughout the book. I guess it's odd, but the whole book had a dreamlike, barely in reality feel to it. I really liked Lance, but wondered what about Vinny he was specifically attracted to at the end. I wonder if their relationship could hold strong in the long term as Lance grew older.Vinny irritated me. For all he left his tiny town to avoid being a drunkard

telling tales in the local bar, he seemed to still be a drunkard. His period of experimentation of drugs is normal, but it made me feel disappointed in Vinny in general. For all he is 9 years older than Lance, he honestly acts like the younger of the pair. It's not a terrible book, by any means, though there were some grammatical and spelling errors that were annoying, but they were most in the last couple of chapters. This writing style seems to be experimental from what little I've read from Aiden Bates. It's not going to be for everyone. I wasn't endeared to it, but I wouldn't warn anyone away from the story. I received a free advance reader copy of this book in exchange for an honest & unbiased review
