# ERG 2012: Quick Lookup

Synopsis

We regret to announce that we at Sheridan Programmers Guild will not produce a 2016 adaptation of the ERG ebook, but we will direct our users to the official NIH ERG 2016 app, which should work as well as or better than an ebook on many mobile devices. Thank you to everyone who has supported the ERG 2012: Quick Lookup!AboutThis ebook takes the Department of Transportation data published in the Emergency Response Guidebook (ERG 2012) and presents it in a familiar form reflecting the print ERG. As an ebook, this ERG is searchable. It also includes internal links for quick access to information. For example, if an entry in the yellow section (substances by ID) references the green (isolation distances) tables, you can tap to jump right to the table. The color-coding of the official ERG is preserved for a familiar experience and ease of use. The ebook table of contents can be used to jump immediately to any section. This edition is up-to-date, based upon the ERG 2012 and includes all the corrections released by the DOT through April 10, 2013, which are not found in physical copies or other digital versions of the ERG. We strive to be not only the most convenient version available, but also the most accurate. The ERG 2012: Quick Lookup offers a speedy and easy platform for accessing the official DOT data. The technical implementation and presentation are unique to our edition.

Customer Reviews

I bought this during a Hazmat refresher due to the lack of enough ERG's to go around. It came in handy for the most part, but I noticed that there were no description of sign and container types and what guide numbers they fell under. Also, I do not recall the green section being in there. THANKFULLY they have updated it to include the image pages to help, but still no green pages. I would recommend for patrol officers, but I wouldn't recommend it be the crutch for the people who will be in charge of such events. Still, I would buy it again. Better to have and not need than to need and not have :)

I see this is $3.99 for the kindle how come there is a fee? My hard copy says something this is not intended for sale. Usaully these are handed to 1st responder not bought. Am I missing something not trying to sound like a jerk. I could understand a smaller fee if any but $3.99 is kind of crazy.

I keep this on my Windows Phone using the Kindle Reading App for quick access when responding in my own vehicle.

These books are helpful in our training of emergency response personal and truck drivers to ensure safe response in unknown situations

This is a convenient portable edition with all the information you need - reliable, organized and easy to find everything you need.
