Customer Reviews

i was searching for a book on tinnitus that would disclose to me a portion of the inconveniences that I have been having with my hearing.this book will offer you some assistance with learning how to manage tinnitus.recommend this striking book for the individuals who confronted a comparative issue.

This book will help you learn how to deal with tinnitus, from the what causes it to the various symptoms. You will also learn a healthy lifestyle that will reduce the outbreak of tinnitus in your life and learn how to manage tinnitus. Recommended!

This book is advertised to have homemade remedies for tinnitus, but it does NOT contain any! Basically it advises you to live a healthy lifestyle and try to ignore the ringing in your ears! WASTE OF MONEY!

I like the fact that we are told this book is written by someone who actually know all about this subject. This is a very helpful book for people suffering from tinnitus. The aim of the book is to lay down the scientific foundation for tinnitus, understanding it and describe how the method works to get it resolved. It is perfectly possible to help yourself with the information in this book.. Overall, I like the idea of what the author is selling but put together it's a pretty radical change most people's lifestyle.
