Customer Reviews

As a registered nurse, it is my experience that it is common practice for most medical doctors, including ophthalmologists to treat symptoms rather than root causes. That's what makes Dr. Kondrot different - board certified as an ophthalmologist and homeopathic physician, his concern

goes way deeper than symptom management. Most people are not aware that the eyes provide a window of what is actually going on in the rest of the body. Many times it is the eye doctor who detects undiagnosed high blood pressure or diabetes because of what he/she sees during an eye exam. The foundation of this book provides recommendations that are not only specific to improving the health of one's eyes, but the total health of the person. Read it and improve not only your vision, but your health as well. Leslie Degner, RN, BSN

I have been in the ophthalmology field for over 40 years but have also been a believer in alternative therapies. Dr. Kondrot is the first synergistic ophthalmologist I have become familiar with in my career and so I was very excited to read his book. The book is well-written, easy to understand and informative about alternative methods of preventing and treating various ocular diseases. This book is well worth reading to learn how to care for your precious vision in a natural way.

There's a lot of information in this book. It includes info on what supplements to take, different treatments, etc. The doctor is also a Homeopath who uses homeopathic medicine in his practice and gives some advice on what to take. I really can't say more at this point or give it more than four stars until I've formed a definite opinion of this book, because I'm slowly reading it trying to take it all in. I do think it could be of use to those who seek solutions to saving their sight.

I was already on the get healthy by eating better track when I came across this book. I am not financially able to do the one week at the eye clinic, but I will be using the free information in the book to improve my site. All of the information in this book is amazing. I had know idea any of this even existed. Thank you Dr. Kondrot

I'm so happy I heard about Dr. Kondrot and learned about his approach to eye care. I think this book is a must for everyone to read, and if having problems, follow his advise and make an appointment. You will not learn this information from your health care specialists. This is a mandatory approach to living a healthy life. I must thank Dr. Kondrot for the information.

Everyone seeking ophthalmic holistic health should read Dr Kondrot's book. Glaucoma, cataracts, macular degeneration and other eye conditions are covered. The book is comprehensive and a very easy read. He is very knowledgable utilizing conventional and integrative medical therapies including homeopathy, microcurrent, ozone and others. The Kondrot 3 day Restore Vision Program

is successful at improving serious visual loss. It is a great guide to overall holistic health. I highly recommend this essential guide to save your sight. F. Matalone, DO, NMD, ABIHM, DAAPM

This book was recommended to me when I was experiencing eye problems. I read it in one weekend. It is so well written and simple to understand. On the strength of the book I drove 2 hours for a consult with Dr. Kondrot. It was well worth it.

Don't sit back and accept the doctors report! You have a say! I prayed about a what I could do to help my vision and I believe the Lord connected me with Dr. Kondrot's book. It's a great beginning to my healing process. May the Lord greatly bless Dr. Kondrot for his love and compassion for his patients! I am thankful for doctors but they don't take the place of God, He is our creator and maker.
