## Customer Reviews

This was promised brand new and it came shipped to me new! I love this organizer. I had seen it in a book store at a very expensive price, but saved me money! This planner and organizer has everything you need to plan a wedding and I love it! I am getting so many ideas just from the book.

It is very helpful.

I debated between this planner and another one by the same authors. I bought this one without realizing a few things. There are NO pockets to put anything in. The dividers don't have pockets unlike all the others, which was part of my reason for buying a planner--to put everything into! It also does not have the 3 ring punch which is just another convenience to add your own documents in. There are no business card/plastic holders at all. This is my only complaint about the book, but I'm not keeping it because it's lacking these features. It has nicer sections than some of the others (and more sections), nice tabs/dividers unlike some of the others, and is more attractive in my opinion. However, it's lacking any of the storage that is necessary to organize magazine pictures, documents, etc.

This binder is suuuper helpful when planning a wedding. I love each divided section and helpful hints for every step of the way. The font is easy to read and lots of blank areas to add own notes and comments. It's also light weight, but durable. The only downfall is that the planner does NOT have any pockets to store documents, pamphlets, business cards, etc. This was an easy fix though: I added my own page protectors to each section I needed one for. After that, the downfall is that the page protectors are bigger than the tab dividers and I'm unable to see each section easily. It's a small price to pay (in my opinion) for the ease of the planner.

This planner covers all the areas in wedding planning. It has great tips on how much things should typically cost and ways to save. It also has a list of questions you should ask each vendor you meet with. I wish it had pockets and business card holders like some of the other ones. I just purchased my own pocket holders to go with this.

This is the wedding planner I bought for my daughter to give to her September 14th 2013. I received this in a box that was too big, Binder damaged on the front with creases inside the 3 rings indented the binder. Edges of album frayed. This is such a disappointment, The party is the 14th and today is the 12th of September. There is not time to ship back and reorder. I will not buy from this seller ever again!

I ordered this for my roommate who is getting married and planning most of the wedding herself. This organizer has everything a bride could want or need in it! It is extremely useful and has a great

layout.
