Customer Reviews

My best friend is finally getting married and I am helping her to set things up on her wedding. This book has helped us a lot especially on things that we need to consider and mistakes that we may avoid on her special day. Budget is one of the first thing we always consider and it helped us to know what to possibly expect might happen on her wedding day. Things that we need to prioritize and put our effort on. The most important thing about this book are things a bride must do before her wedding day. This preparation is still a long way to go but Atleast we have ideas about what to do to make sure everything goes well on her special day.

Planning a wedding is such a tedious task most especially for the bride to be because they always have the final say when it comes to the decision making and all the minor details the wedding should have. Everything must be considered from the color of the boquet to the arrangement of the chairs and people sitting on it. Good thing that there are already books like this to help the ladies sort it out. It basically gives an idea of what not to do in order to prevent mistakes and absolutely saves you time.

I love this wedding planner book. I am having a wedding soon, then found this book. I don't know the first thing about wedding planning and this binder has made it a breeze. I am so pleased with this purchase. Highly recommended for any bride-to-be, it helped me keep everything i know how to make my wedding plan easier.

Iâ™m about to plan a wedding event for my bestfriend and I needed this book to help me get through this exciting event of her life. This book had help me become more aware of the mistakes I should personally avoid, how to choose the perfect theme and create an amazing reception. Hope everything turn out right.

Wedding is one of the most important and memorable celebrations a woman can have. So in order

for it to be as perfect as you want it to be, then read this book. Here, you will be guided on how you can avoid the possible mistakes during this great event of your life. This will help you in getting yourself more prepared and relaxed when in time for your wedding. Both the bride and groom will definitely find this a very helpful guide.

I never knew fully what all has to be prepared for, like the budget for example. I wasn't aware of all that goes into the budget. I'm definitely going to need to prepare for my wedding well in advance, I don't like last minute things. At the end of this book the author even suggests other follow up books about various things that this book only light touches on, it's awesome, I'm going to have to go back and get those books too now. I received this book for free to review
