Transport Phenomena In Materials Processing

Synopsis

This text provides a teachable and readable approach to transport phenomena (momentum, heat, and mass transport) by providing numerous examples and applications, which are particularly important to metallurgical, ceramic, and materials engineers. Because the authors feel that it is important for students and practicing engineers to visualize the physical situations, they have attempted to lead the reader through the development and solution of the relevant differential equations by applying the familiar principles of conservation to numerous situations and by including many worked examples in each chapter. The book is organized in a manner characteristic of other texts in transport phenomena. Section I deals with the properties and mechanics of fluid motion; Section II with thermal properties and heat transfer; and Section III with diffusion and mass transfer. The authors depart from tradition by building on a presumed understanding of the relationships between the structure and properties of matter, particularly in the chapters devoted to the transport properties (viscosity, thermal conductivity, and the diffusion coefficients). In addition, generous portions of the text, numerous examples, and many problems at the ends of the chapters apply transport phenomena to materials processing.

Book Information

Hardcover: 660 pages

Publisher: Wiley-TMS (July 9, 1998)

Language: English

ISBN-10: 0873392728

ISBN-13: 978-0873392723

Product Dimensions: 6.2 x 1.4 x 9.3 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars [See all reviews](#) (1 customer review)

Best Sellers Rank: #901,871 in Books (See Top 100 in Books) #63 in [Books > Engineering & Transportation > Engineering > Chemical > Unit Operations & Transport Phenomena](#) #69 in [Books > Engineering & Transportation > Engineering > Materials & Material Science > Extraction & Processing](#) #1603 in [Books > Engineering & Transportation > Engineering > Energy Production & Extraction](#)

Customer Reviews

Was sent to the wrong address, but there was a prompt email from the supplier and sent to the correct address within 3 days, very good. thank you
