Customer Reviews

If Joe Lisa’s book is out of print you can bet that the Pharmaceutical Advertising Council or the AMA bought every last copy of it to take it out of circulation. His previous treatise "The Great Medical Monopoly Wars" is also out of print presumably for the same reasons. Lisa documents the fraud and corruption behind the anti-quackery campaign conducted and financed by the pharmaceutical industry to eliminate alternative medicine. Lisa proves that officials in the FDA, IRS, FTC, the United States Post Office and the Better Business Bureau and the Media conspire with PAC and its lackeys to discredit practitioners and treatments that do not use synthetic drugs. He exposes the dirty work of quackbusters Stephen Barrett, John Renner, Williams Jarvis etc., and their corporate backers in detail, and concludes that, although the tactics have changed, this hundred year old witch hunt is not about to end. This book is a rare and bold piece if investigatie journalism that ranks among the best in a series of related works such as Martin Walker’s "Dirty Medicine" and Guillaine Lanctot’s "Medical Mafia". Lisa is an investigative reporter, private eye, undercover operative and civil right activist, whose previous published work includes scathing reports on government mind-control experiments, illegal biological and chemical experiments on U.S. citizens, and other infringements on the constitutional rights of American citizens.

Whew, I’ve been studying alternative medicine for close to 25 years and am so encouraged by this
expose of the AMA and its arrogant power and corruption as it continues to this day to try to stifle any competition that is NOT for MD’s only and their chemical drug dependency. A scholarly work about a demonstrable conspiracy. This book is so fine I’m not surprised that it is out of print. It reminds me of G. Edward Griffin’s book “World Without Cancer” which went to about two dozen editions back in the 1970’s and you can’t find it anywhere today. Too much truth in it. I was lucky to stumble across this one at a Goodwill store. If you have any doubts about the truth in this book go to the House of Representatives Committee on Government Reform, on the net, and look up March 10, 1999 “EDTA-Chelation: Is the Government doing more harm than good?”. Now, obviously not all MD’s are bad, but after reading this book, the testimony on the Hill, and checking out [...] see if you can really trust your MD again completely. Somebody please hire me (reasonable) to write a condensed version of this book (wordiness is its only flaw) and let’s support freedom of medical choice. Footnote: The Journal of the American Medical Association admits that prescribed drugs given CORRECTLY are the 4th leading cause of death in this country. Yet the State Medical Board in Maryland ordered my wife’s physician to stop ANY alternative medicine for THREE YEARS. Yes, he was chelating, his patients love him, and, you should know, in New Zealand it is ILLEGAL to bypass or do an angioplasty without trying chelation first. P. Joseph Lisa does a great job explaining why we are being duped by the so-called anti-quackery or anti-health fraud cliques in this country. Write your congressman and mention the RICO laws in this regard. Sign me: An American Philalethist (Lover of Truth).

I have known P. Joseph Lisa for years. His research and work on Assault ON Medical Freedom is a blockbuster expose on the criminal fraud link between members of government, the medical community and the medical/pharmaceutical industry. He exposes the brazen anti-trust links and power used to hide the truth about Medicine in America in a well organized manner. He should receive a medal for this work and anyone who cares should read it. In the six years since Obama has become President any American with half a brain can now recognize the criminality and corruption in our government. Obama is by far the most heinous, corrupt politician ever to walk into our lives. I pray for America daily and hope that people will read this and other books that show how big government and liberals are destroying our health, our national economy as well as our traditional Judeo-Christian values. The rank truth in this book should have the reader madder than hell and wanting to fight back against this thuggery that has all decent human beings on earth
impaled on the stake of greed and dishonesty.
