Customer Reviews

Since this will be the 25th, 5-star review I gave it a serious thought and summarized the public opinion for the book, what makes it a masterpiece as well as its author The World's N1 Expert on Cruise Ship Employment. I was jumping for 5 minutes after the successful phone interview was over and after I told my mom we were both jumping for another 2 minutes! Believe me, if this author with his masterpiece was able to help a McDonald's waitress to get a job as a waitress in a 5-star restaurant onboard of Celebrity Cruises then he really knows the ins and outs of getting a cruise ship job! I have also bought 2 other books from this category and believe me this one is levels beyond the others! If it doesn't help you to get a cruise line job then none of the other can ever help you out. When Tony, my boyfriend starts talking like this- first, second, third, forth, fifth I hate it! However when it comes to winning a cruise ship applications war for a single position the author's approach and style are both perfect and unmatched! He is giving you just like a road map which you

only have to follow and... you are there just like me. I did it and so many people with verified identity by are writing in the reviews for the book that they have already got a cruise ship job. My mother told me: "Sweaty, it is better first to have 1-2 years in a 4-5-star restaurant before you apply for the cruise lines." I gave it a thought and I didn't agree. Thousands of waiters with years of experience in internationally recognized hotels and restaurants are NOT getting a cruise ship job. What happened with me confirms the author's most zealous target "focus and impact". Celebrity Cruises want to stand out from the other cruise lines.
