## Synopsis

If you're looking for an easy-to-read, chronological guide to every step of the law school experience, this is the book you need. Written from a student's perspective, rather than that of a professor, *Law School Insider* answers every important question faced by today's new law students and their families! Learn about admissions, each year of classes from 1L to 3L, student organizations (including special sections on law reviews and other journals), job hunting, bar exams, and much more. Discover modern legal careers and learn how to win jobs with top law firms and judges. Take an inside look at modern family, gender, racial, and other key issues for today's students. Find out how to take classes in Europe and Asia for credit in United States law schools. Conquer the nation's toughest bar exams and learn which have the highest pass rates. Learn all about law reviews, their secret elections, and how to become an editor. If you need to learn about law school, make certain that *Law School Insider* by Jeremy B. Horwitz, esq. is at the top of your list!

## Customer Reviews

A little about me: I'm now in my second year of law school and Purchased both *Law School Insider* and *Law School Confidential* last year. I wound up keeping only my copy of *Law School Insider*, which is a newer and more relevant book for me. Now that I've completed my first year, I think that there are three books that every law student should read before (and maybe during) attending law school. The first two are *Law School Insider* and *Getting to Maybe*. *Getting to Maybe* is a good book on exams, and *Law School Insider* is the best book about the experience and how to prepare. A little

about law school: law school is a challenging LEARNING experience. If you want to be a lawyer, you go to law school to learn how to think, how to read, and how to manage your time. It is not just about getting good grades, it is about picking an area of personal specialization and actually learning. Only Law School Insider speaks to both the importance of grades and truly learning a specialty. Besides the fact that Law School Insider is much more thorough, it is also a mature person's look at law school. Law School Confidential is peppered with exclamation marks (to make it seem more exciting!), formulas, way too many cocky, overconfident male perspectives, and handfuls of comments from all-white "mentors." I recognized these as gimmicks when I saw them but only realized how wrong and useless they were for me when I tried some of them. By comparison, Law School Insider is a balanced book that actually speaks to the lifestyles and choices of different readers, including people who are married and worried about starting a life after law school, and tells people from diverse backgrounds how to maximize their chances of success.

As a prospective law school applicant, who will be applying to a Juris Doctor program this year, I read a lot of books about law schools. Law School Insider by Jeremy Horwitz, Esq. (a cum laude graduate of Cornell Law School, who is currently working as an attorney) is by far the best book about a student's life before, during, and after law school. Unlike other books, this book is organized in a straight-forward manner and is well-written. It starts from the Introduction and Preparing for Law School Chapters that guide you through the entire admission process, from selecting a good law school to making educated choices after receiving acceptance letters. Thereafter, the author writes about the first year, memorable first-year summers, two-L, journal elections and intrigue, second-year summers, the third and final year, and the Bar exam. In addition, the book is supplemented by useful Tables on the first-year course schedules across the nation; modern law-related career options and elective specializations; state Bar exam subject matter coverage and MPRE requirements, to name a few. Various Appendixes include the sample writing completion submission and sample class outline excerpts. Throughout the book, Jeremy offers a lot of valuable details about his personal experience as a law student in Cornell Law School. For example, he writes that his "...own first day of classes was only modestly intimidating. The readings had taken a long time, but were short enough that I thought that I generally understood where they were going. Most of my professors initially came across as nice enough people, and the first class discussions about the readings were relatively gentle..." I found this to be similar to my own law school classes.
