## Customer Reviews

Arnold Ehret's original MDHS contains all the information needed to radically change anyone's life, providing they are truly committed and rational about their lifestyle changes. Nevertheless, its relevance is reduced by archaic, almost 100-year-old cultural references and sometimes strange translations from the original German that don't always make sense in our modern culture. Professor Spira has researched Arnold Ehret and his writings extensively, experienced the diet first-hand for years, and understands every aspect of Ehret's thoughts in a way that a casual first-time reader may not. Professor Spira makes this amazing yet archaic book easily accessible to anyone concerned about health today. The annotations provide a very helpful clarity that is just not found in the original writing. This is the only book about diet and health that perfectly describes and accounts for everything that I have empirically observed happening around me in my life. I feel like I took the red pill from the Matrix and understand why everyone is having problems with their health. This book goes against everything you have ever learned from society about health and diet. (Except maybe "eat more fruits and vegetables"). Until you feel the results of this system yourself, you might find some aspects very strange or hard to believe. 2 tips that may be otherwise looked over as not-important by anyone starting this healing system, but they are in fact VERY

important:-TRANSITION SLOWLY, CAREFULLY AND RATIONALLY-DO ENEMAS This is not a "get healthy quick" program, this is a lifestyle change. Enemas are your best friend and will get you through tough periods of emotional and physical discomfort.
