Synopsis

With oversight from the Joint Committee on Standards for Educational Evaluation, Yarbrough, Schulha, Hopson, and Caruthers have revised and illustrated this new edition of the Program Evaluation Standards. These thirty standards support the core attributes of evaluation quality: utility, feasibility, propriety, accuracy, and accountability, and provide guidance to anyone interested in planning, implementing, or using program evaluations. The book is an invaluable resource for practicing evaluators, students, evaluation users, and clients.

Customer Reviews

This book is a necessity for evaluators. However, there were mistakes in the book. The publisher provided an insert where these mistakes could be replaced. I'm glad the insert was provided, but it was annoying to have to cut and tape them throughout the book.

This book has been very helpful for my class and informative. The only downfall is that for some reason rental has it shorter than usual for the rental time and I will have to renew it again and again to keep it for the remainder of my semester. This hasn't happened with any other books I have rented. So, with the stress of having to re rent it, you might be better off just purchasing it used.

The guidebook is on my top shelf for reference when clients seek a better understanding of the processes and procedure needed to conduct quality program evaluations.
