# Remarkable Healings: A Psychiatrist Discovers Unsuspected Roots Of Mental And Physical Illness

## Synopsis

Psychiatry remains an emerging discipline. Many people suffer from ailments that have no apparent cause, no obvious cure. Quite by accident, while using hypnotherapy, Dr. Modi discovered that past-life regression can be a beneficial treatment. Many of these patients, under hypnosis, claimed to have spirits attached to their bodies and energy fields, creating psychological and physical problems. Based on years of experience, Dr. Modi describes techniques that release these spirits, revealing how patients can sometimes recover within a few sessions. While most doctors would agree that emotional states affect our health, few would give credence to spiritual "influences." In this truly groundbreaking book, Dr. Modi presents evidence that something beyond the physical affects the health of many people, and urges medical scientists to objectively assess this revolutionary approach to mental and, often, physical illness. Pioneers have the courage to put aside the status quo and evaluate what the evidence shows, even if it defies the prevailing logic of the time. Both physicians and the general public should explore the pioneering work of Dr. Modi--work which no doubt has produced many remarkable healings.

## Customer Reviews

This really "remarkable" book by Dr. Modi is a practical no nonsense book than enables us not only to heal longstanding psychological and health problems, but reveals the answers to mysteries that have puzzled people for millenia. Dr. Modi, M.D., is a psychiatrist who saw the limitations of traditional psychotherapy and drug prescriptions for most mental and physical health problems.

Using hypnosis as a tool, she was able to interview the "soul" of the patient to find out the cause of their problems. To her surprise, she found not only the soul, but other beings were often inside the person, entities, discarnated, demons, inner children, past life personalities. By clearing away all this debris, the soul was able to start healing its missing and wounded parts, resulting from traumas of this and past lives. Many patients had miraculous healing from just one or 2 sessions! She interviews actual demons and ghosts and gets detailed answers as to how they get their training in hell, what motivates them, and how to free them into the light. She finds how past life traumas and relationships determine who we know in our present life, and what health problems we now have. She describes how we choose all major life events, both positive and negative for soul growth. All of this is done without religiosity or theory. It is all practical for the healing of bodies, minds and souls. I myself am a very successful health practitioner. after just 4 days of applying her approach with patients I'm also getting remarkable results. One lady I have given dozens of remedies for migraines, finally got them licked for good when we successful persuaded two black demon to leave her head. Jesus casting out demons was no metaphor, it works.

I was a patient of Dr. Modi. Everything she writes in her books is true. I initially saw her for acute depression, loss of short term memory, and psychic incidents entering my life. During treatment I was cured of the following things:A. Acute DepressionB. Loss of Short Term Memory improvedC. She helped me to understand that I was actually having psychic occurrences brought about by a psychic opening and a kundalini uprising.D. Needle phobia so bad that sometimes Alien Hand Syndrome would happen. My left hand would shoot out and grab the wrist of a nurse or doctor holding a needle and restrain them until my brain took over.E. A phobia about touching certain kinds of cloth or fabric.G. Fear of being crushed.Many of the problems were healed through past life regression where returning to the precipitating incidents, healing the emotions, forgiveness, and understanding allowed the damage to drop away from me. Other problems were solved by releasing human spirits, minor demonic possession, and releasing and reclaiming soul attachments.It may sound ridiculous but I tell you it is true. I am a highly intelligent, very well educated (Ph.D.) person who held a number of very responsible positions in my community over the years. I am now retired.I currently use my reveled psychic abilities including a talent for healing for the good of others. I've seen several physical miracles occur while doing healings. I work only at church and there is no charge for my services although you may make a donation to the church.I believe so strongly in Dr. Modi's work that I went out and became a Certified Hypnotist and a Certified Instructor of Hypnotism recognized by the largest of the national hypnosis organizations.
