Ex-Boyfriend Material

Synopsis

Wanted: one roommate. Alex is smart, charming, and attractive. Good at approaching people and getting them to sleep with him, his talents fall down when it comes to maintaining a relationship. His last boyfriend left him with a broken heart and without half the rent, so now he needs a new roommate. This time, he wants someone mature, sensible, and not even a little bit attractive to him. What he gets is Liam--funny, gorgeous, and surprisingly put-together for a man who doesn't own a single shirt without a stain on it and has an incurable oral fixation. After months of feeling as though he can never move on while he lives in London, America is Liam's fresh start. His breakup with his girlfriend left him heartbroken, and home only reminds him of everything he's lost. With a twelve-month contract on offer, the chance to take a break is too good to pass up. All he needs now is a roommate, since his company-organised apartment has fallen through. He runs across Alex's Craigslist posting and thinks the other man seems perfect--little does he know that his new roommate is also nursing a broken heart, and coping with it by sleeping his way through the entire population of New York. Can two men burned by love see what's right in front of them? Both of them know the dangers of getting into a relationship with their roommates. Alex spent months stuck in a relationship that made him increasingly unhappy, Liam had to move away from his home to give himself a chance to heal. They seem to soften each other's rough edges, fill the gaps in each other's lives. But love is risky, and their hearts are fragile--can they learn to trust one another and take the chance to have a home in each other's arms? Or will their pasts and their fears get in the way of their happiness? Ex-Boyfriend Material is a stand-alone story of approximately 33,000 words. It ends happily ever after, and has no cliffhangers. It does, however, have unfashionable waistcoats, minor shirt fires, art exhibitions, cultural differences, and explicit scenes.

Customer Reviews

This is the first book I've read by Sean Ashcroft and I really enjoyed it. The slow build-up spoke to the differing personalities of Liam and Alex. Their budding friendship gave them the time to trust in their feelings for one another and eventually lead them to a solid relationship and the love they both deserved.

Really enjoyed this book. You quickly fall in love with the characters. I love how the author truly made it feel real with the very slow build up to the characters expressing their feelings. It felt real, you can feel the emotions. Recommended.

The book had 1848 locations on my kindle. The book was about 2 men, Liam and Alex. Liam was a 27 year old bisexual artist. Alex was a 25 year old bisexual PR person. Liam was moving from London to New York and looking for a place to stay, therefore he answered an ad. Alex became his only friend and roommate. The book contained a few kisses and a hand job. The Liam character was ok. He was sweet and caring man, who had had one serious relationship, in his life. Alex was harder to love. He was emotionally needy, self conscious man, who constantly had one night stands with men and women. The book was sooo boring, with no action and no chemistry between the men.

This is a story of two men who fall in love and friendship without either being aware of it. Both men are bisexual. Alex lives in NYC and has broken up with a verbally abusive boyfriend who sucked him dry for money. Liam is from London and has broken up with his girlfriend and is looking for a change in his life. He moves to NYC and becomes Alex's roommate. Alex believes he is not good for anybody and does one night stands. Liam is not able to have casual sex and must like someone

before he can have sex with them. They become good friends, unaware they are falling in love. Follow this pair as they travel their own paths toward each other. There is only mild, but romantic sex. A jerk for an ex and fear of relationships

I liked the story though it was a little slow going. The characters were well defined (if a bit daft) and interesting. I was dissatisfied in the amount of love in this love story, just as it starts the book ends...

Intoxicating! I fell in love with the characters in this book. The descriptive writing pulls you in to each person's thinking. I felt the anguish of loss, friendship, and especially the love. I have to admit I was so engrossed with the book I devoured it in one reading. I am excited to have more from the author.

Love the main characters, not perfect and they change and evolve throughout the story. Love reading about how they handle their cultural differences. Just because they both speak English doesn't mean they understand slang.

Two MC that you like! Both are well written and complex and ultimately perfect for one another. Really enjoyed it. Fair warning less sex than in many books but I believe it made the characters more realistic.
