## Customer Reviews

I loved the full length novel and couldn't put it down. I bought this summary to freshen my memory. It is very cool to see someone else's point of view on not only the story, but also the characters. I loved how the author broke it down chapter by chapter and really got straight to the point. Great summary and I would recommend.

Have been a fan of slaughter, have always known her through her thriller novels be causing of that right use of words that can provoke any individual emotions and help establish that self belief of an individual. I really loved reading this summary books, it's capsuled all main key points in a simple and precise manner.

I didn't finish the novel. It draws me in from the start but it's a long read and soon I have forgotten where I have stopped. I couldn't pick it up and re read again. And I choose this quick method to finish what I have left behind. Overall a very good summary to wrap up the whole novel in 15-30 minutes I think. I still felt the strong emotions in the start. How a tragedy can changes everything and when we looked back through the past after many years have been wasted, you just can't but cry in your heart.

Already read the original novel, it is a good read. I also enjoyed reading this summary book. It is very well written and concise. Each main character was described in a thorough manner and each chapter was also well summarized. This book is recommended to people who love the novel so much, you will also enjoy reading this summary or if you just want a quick read of what the novel is all about. This is also a good reference if you are looking for a quality summary of the novel, Pretty Girls.

Pretty Girls is a very competent thriller that delivers plenty of horrors and suspense. I am glad that there's a summary on this novel. I appreciate the sophistication with which this was written and the detail that illuminated the story! It was almost impossible for me to put this book down. The author does an amazing job of making the story more understandable. I would definitely recommend this book!

I have no idea about this novel Pretty Girls aside from it is a thriller and mystery. So, all I can say is it was a good summary because each chapter was written nicely that I was able to catch up and the feeling was like I am reading the whole novel. Nice story for a crime thriller. I wish I can have a

chance to read the whole novel in the future.

This book is nice for those who don't want to read the long novel and just want to know what is up. That would be me, honestly, since my time is precious. It's short, it's concise, and it gets the main message across about the novel.

Excellent short cut. I used to love reading cliff notes instead of books when I was in school because it gave you exactly what you needed. This is just like that. It gave a great summary of Pretty Girls.
