Synopsis

Developmental Research Methods, now in its Fourth Edition, successfully presents an overview of methods to prepare students to carry out, report on, and evaluate research on human development, with a focus on the whole lifespan. Updated and expanded coverage of the traditional topics blends seamlessly with new topics such as cross-cultural research, animal research, causal modeling, autobiographical memory, and peer relations to provide students with a wealth of current information. Author Scott A. Miller explores every step in the research process, from the initial concept to the final written result, covering conceptual issues of experimental design as well as the procedural skills necessary to translate design into research.

Book Information

File Size: 3278 KB

Print Length: 447 pages

Customer Reviews

This book was required for my introductory Research Methods course in graduate school. There was nothing bad about this book, as it definitely provided the required information, but it was not as inviting as the other textbook we used with it in the same class. This is not the type of book you'll

just peruse for more insight, though our other textbook was.

Good!

The Zuckerman Parker Handbook of Developmental and Behavioral Pediatrics for Primary Care (Parker, Developmental and Behavioral Pediatrics) Developmental Programming for Infants and Young Children: Volume 2. Early Intervention Developmental Profile. Revised Developmental Research Methods Case Study Research: Design and Methods (Applied Social Research Methods) Survey Research Methods (Applied Social Research Methods) Counterfactuals and Causal Inference: Methods and Principles for Social Research (Analytical Methods for Social Research) High Throughput Screening: Methods and Protocols (Methods in Molecular Biology) (Methods in Molecular Biology, 190) Transforming Self and Others through Research: Transpersonal Research Methods and Skills for the Human Sciences and Humanities (SUNY Series in Transpersonal and Humanistic Psychology) Qualitative Research Design: An Interactive Approach: 41 (Applied Social Research Methods) Engineering Methods for Robust Product Design: Using Taguchi Methods in Technology and Product Development Gender Selection: The Complete Guide: Choose the Sex of Your Baby with Easy and Proven Natural Methods (Gender Selection Methods) Antibody Phage Display: Methods and Protocols (Methods in Molecular Biology) Lead Generation: Methods and Strategies, Volume 67 (Methods and Principles in Medicinal Chemistry) Patch-Clamp Methods and Protocols (Methods in Molecular Biology) Essential Ethnographic Methods: A Mixed Methods Approach, 2nd Edition (Ethnographer's Toolkit) Vaccine Technologies for Veterinary Viral Diseases: Methods and Protocols (Methods in Molecular Biology) Methods for the Oxidation of Organic Compounds: Alcohols, Alcohol Derivatives, Alkyl Halides, Nitroalkanes, Alkyl Azides, Carbonyl Compounds, Hydrox (Best synthetic methods) (v. 2) HPLC of Peptides and Proteins: Methods and Protocols (Methods in Molecular Biology) Making Classic Toys That Teach: Step-by-Step Instructions for Building Froebel's Iconic Developmental Toys Epilepsy and Developmental Disabilities, 1e
