Customer Reviews

This book very helpful if you've been battling your cellulite. I've tried tons lotions, creams, and oils

that were meant to get rid of cellulite but didn't really help. This book actually gives you tips on how to reduce the appearance of cellulite naturally.

Concise and well written, this book gives a lot of tips to help you reduce cellulite - from diet, to breathing, to exercise, to home remedies. If you're looking for ways to reduce your cellulite, you'll find good advice here all in one easy to read book.

This book is targeted at women, but I, as a man, also found it helpful. I'm one of a few unlucky guys who has a bit of cellulite on his thighs. I lost a fair amount of weight recently, and it didn't go away. Kathy Anderson really does a great job approaching the issue from all angles. She tells you what cellulite is then tells you a variety of ways to get rid of it (diet, exercise, home remedies, etc). The information is comprehensive yet concise, and the book is laid out and organized well. If you want to learn about how to reduce cellulite, this is the only book you need. Recommended!

Great read. Great to have as a resource. Natural health is a great learning experience. Would recommend to someone wanting to help themselves.

This little book packs a wealth of information about reducing cellulite and ways to become more healthy in the meantime. Very easy self-help procedures that anyone can follow.
