# Simple Stunning Wedding Showers

## Synopsis

Of the many celebrations surrounding a contemporary wedding, the wedding shower is especially personal and especially meaningful. As its name implies, it's the occasion when friends and family gather to "shower" the bride or couple with love, laughter, tokens of affection, and heartfelt wishes for the future. It intensifies the excitement about the big day to come. And because it's more intimate and less formal than other wedding-related events, the shower uniquely carries the signature of the friend who hosts it. Bringing together all the elements that make for a successful wedding shower; one that's memorable for everyone involved; is no small task, however. Selecting the right theme (elegant tea, homey brunch, swanky cocktail f<sup>à</sup>te?) and then deciding on the guest list, designing the invitations, creating the menu, and picking out the decorations all require imagination and careful planning. In *Simple Stunning Wedding Showers*, author Karen Bussen draws on her long experience as a wedding and party planner to guide the shower-giver through each step, from budgeting and etiquette, to choosing refreshments that enhance the ambience, to devising activities that break the ice and heighten the fun. Throughout, William Geddes's remarkable photographs bring Bussen's simple stunning ideas to vivid life. --This text refers to an alternate Hardcover edition.

## Customer Reviews

Hi, I liked this book for the ideas in it, but the author doesn't give you how to make the invitations to go along with the ideas or how to make favors to match, etc. If you are wanting more of a "project" oriented shower book, don't buy this book. This book is more of an "idea" book. Now, there's some

good recipes in the back, but that's about all this book seems to be good for as far as "project" orientation goes. I would suggest a different Bridal shower book if you want projects to make. Thanks.

This book was very helpful and planning wedding showers and the pictures were awesome. The main reason i bought the book was for the pictures, they give you great ideas for all kinds of things. A bonus of the book is that in the back it tells you where you can buy all the products u see in the book. If youre looking to plan a shower and need help with themes, games, information, resources, then this is definitely the book for you.

I bought this book because I'm a perfectionist and I honestly thought that a book on wedding showers would make me a better bridesmaid. I know...silly. It's a fine book, but not worth the money in this age of Martha Stewart Weddings, pinterest and the Knot. You won't find anything in here that you can't find via a quick google search online. Save your money for the shower.

I enjoy all of Karen Bussens' books. They are elegant, beautifully photographed and full of wonderful ideas. Perfect for anyone who loves to give parties, entertain, or is just creative in general. You do not need to be involved in wedding planning to need or even enjoy these books. A very good buy!!!!

I bought this book just for Shower ideas - and it also had recipes! I loved it!!

Great book. Arrived when promised and in great condition. Great/ wonderful party ideas. I would recommend it for anyone planning a wedding shower.
