Customer Reviews

I can count this book as one of the interesting books I have read in a while. It contains a lot of tips and literally lots of strategies that would help a person set up a good business and excel. The author started by first implanting the idea in the reader's mind. If you did not initially have the idea, you may get convinced to start nursing it. This book leads the reader from the process of feeding the thoughts of starting a new business to the process of actualizing this thoughts and managing the

already set up business. It is a really good book and I strongly recommend it

I am planning to start up a business so I was interested in this book. The book has more information than I expected. It has answered my questions about business. As well as nice and colorful illustrations. Reading this book enlightened me and changed my perspective on business. What I also like about this book is that it has credibility. Everything written has been from many years of knowledge and experience of starting up a business. After reading this my motivation increased to push through my plans now that I have the knowledge. I will be following the advice and guidance from this book upon the start-up of my business. This should be read by anyone who is planning to venture a business or any student of MBA.

A nice business guide on how to start up a new business, grow your own business making sure the business is carried out successfully to achieve results. With this book we can be able to run our business successfully making profits and knowing the various ways of running a successful business. By engaging in activities that would help the growth and development of the business. You can be able to know how to effectively market your business, know the kind of products to deal with and also know the kind of individual that are in need of the products you deal with.

Reading books like this refreshes my knowledge and ideas in marketing. There are lots of excellent strategies contained within that I could immediately implement and truly helped to take my business to the next level. A brief discussion per strategy is provided with a direct-to-the-point approach which, depending on the reader, may be a good thing or a bad thing. If you want an elaborate explanation on things then you might find this book lacking but if you want an easy and fast read, then this book is just the right one for you.

I've been considering starting my own business because honestly, I'm tired of getting up to go make someone else's dreams come to reality every morning. I've had a few ideas over the years, but nothing motivating enough to take the plunge. This book surely helped me gain insight into what it would take to start and market my business when I'm ready to take the plunge, and I think I'm ready. I'm so glad I read this book, it gave me the confidence I need to get started soon.

This book is an exceptional book with its so much knowledge about business. It will help you to start your new business and become a very successful businessman. You will get to know about starting

a business, handle it perfectly, grow it and step by step everything etc. So, this book is a one way ticket for your successful business career. You will build up your own independent business and create an example for all of them who are struggling to make living for them. This book is on my best recommendation list for you.

friends and mentors told me that it would take time to get more costumers, but I wasnâ™t entirely convinced. I felt that it was able to market my business in a more efficient way, so I bought this book in the hope that it could help me market my business. I have to say, the book is a very good one as it was able to show me some simple principles which have almost doubled my client base! If you need a good book on business marketing I recommend you to read this one!

This book is aimed at people who are inexperienced in any kind of business. So if you have some hobby and you would like to make some money of it, you can read this book to give you a general idea what you are getting into. It gives a nice overview what you can expect without going into details what are the steps to start your own business.
